

## Chateau Glide-arium™ Mesh Enclosure Frame

14 – **A**

8 – **B**

4 – **C** (2 w/wheel mount)

4 – **D**

4 – **E** (only w/wheel mount)

1 – Wheel Mount (optional)

Your frame was tested to ensure a quality fit to your Glide-arium™ mesh enclosure prior to shipping. A rubber mallet was used to obtain a snug fit between the pipe and the connectors. **DO NOT** force the mesh onto the frame. Doing so will result in ripped seams as this material does not stretch or give at all. If the mesh does not go onto the frame, the frame was not assembled properly.

*Glider Nursery is not responsible for tears occurring from improper assembly of the frame, or from modifications of frame.*
